Title Statement

Title: Annual Survey of Jails: Jail-Level Data, 2013

Alternative Title: ASJ 2013

Identification No.: 35517

Responsibility Statement

Authoring Entity: United States Department of Justice. Office of Justice Programs. Bureau of Justice Statistics

Production Statement

Producer: Inter-university Consortium for Political and Social Research

Place of Production: Ann Arbor, MI: Inter-university Consortium for Political and Social Research

Series Statement

Series Name: Annual Survey of Jails: Jail-Level Data Series

Series Information:

The Annual Survey of Jails, formerly titled National Survey of Jails, is the only data collection effort that provides an annual source of data on local jails and jail inmates. The series was begun in 1982 by the Bureau of Justice Statistics with data collected by the Bureau of the Census. Local jails are locally-operated correctional facilities that confine persons before or after adjudication. Inmates sentenced to jails usually have a sentence of a year or less, but jails also incarcerate persons in a wide variety of other categories. Data on the size of the jail population and selected inmate characteristics are obtained every five to six years from the Census of Jails. In each of the years between the full censuses, a sample survey of jails is conducted to estimate baseline characteristics of the nation's jails and inmates housed in these jails. Data are supplied on admissions and releases, growth in the number of jail facilities, changes in their rated capacities and level of occupancy, growth in the population supervised in the community, changes in methods of community supervision, and crowding issues. The data are intended for a variety of users, including federal and state agencies, local officials in conjunction with jail administrators, researchers, planners, and the public.

Years Produced: Annually, except every 5 or 6 years when the National Jail Census is produced.

Abstract

The Annual Survey of Jails (ASJ) is the only data collection effort that provides an annual source of data on local jails and jail inmates. Data on the size of the jail population and selected inmate characteristics are obtained every five to six years from the Census of Jails. In

each of the years between the full censuses, a sample survey of jails is conducted to estimate baseline characteristics of the Nation's jails and inmates housed in these jails. The 2013 Annual Survey of Jails is the 26th such survey in a series begun in 1982.

The ASJ supplies data on characteristics of jails such as admissions and releases, growth in the number of jail facilities, changes in their rated capacities and level of occupancy, growth in the population supervised in the community, changes in methods of community supervision, and crowding issues. The ASJ also provides information on changes in the demographics of the jail population, supervision status of persons held, and a count of Non-U.S. Citizens in custody.

Starting in 2010, BJS enhanced the ASJ survey instruments to address topics on the number of convicted inmates that are unsentenced or sentenced and the number of unconvicted inmates awaiting trial/arraignment, or transfers/holds for other authorities. In order to reduce respondent burden, the ASJ no longer collects data on conviction status by sex. Also new to the survey, data are collected on jails' operational capacity and design capacity. Incorporating enhanced capacity measurements enables BJS to describe more accurately the variation and volatility of inmate bed space and crowding, especially as they relate to safety and security in jails.

To address more directly issues related to overcrowding and safety and security in jails, BJS started collecting data on staff and assaults against staff from the largest jails. In the modifications to the ASJ, starting in 2010, 335 jail jurisdictions (370 respondents) included with certainty (stratum 1 and 12) in the ASJ sample survey were asked to provide additional information (forms CJ-5D or CJ-5DA) on the flow of inmates going through jails and the distribution of time served, staff characteristics and assaults on staff resulting in death, and inmate misconduct.

The data presented in this study were collected in the Annual Survey of Jails, 2013. These data are used to track growth in the number of jails and the capacities nationally, changes in the demographics of the jail population and supervision status of persons held, the prevalence of crowding issues, and a count of non-U.S. citizens within the jail population. The data are intended for a variety of users, including Federal and State agencies, local officials in conjunction with jail administrators, researchers, planners, and the public. The reference date for the survey is June 30, 2013.

Jails are locally-operated correctional facilities that confine persons before or after adjudication. Inmates sentenced to jails usually have a sentence of a year or less, but jails also incarcerate persons in a wide variety of other categories. Local jails:

- receive individuals pending arraignment and hold them awaiting trial, conviction, or sentencing,
- readmit probation, parole, and bail-bond violators and absconders,
- temporarily detain juveniles pending transfer to juvenile authorities,
- · hold mentally ill persons pending their movement to appropriate health facilities,
- hold individuals for the military, for protective custody, for contempt, and for the courts as witnesses,
- release convicted inmates to the community upon completion of sentence,
- · transfer inmates for Federal, State, or other authorities,
- house inmates for Federal, State, or other authorities because of crowding of their facilities,
- relinquish custody of temporary detainees to juvenile and medical authorities,
- sometimes operate community-based programs as alternatives to incarceration,
- and hold inmates sentenced to short terms (generally less than one year).

Summary Data Description

Time Period: July 1, 2012 - June 30, 2013

Date(s) of Collection: June, 2013 - November, 2013

Country: United States

Geographic Coverage: United States

Geographic Unit: City and County

Unit of Analysis: Jail facilities

Universe: All sampled jail jurisdictions (i.e., counties, municipalities, boroughs, etc.) identified from the 2005 Census of Jail Inmates.

Kind of Data: Survey data

Notes

DEFINITION OF TERMS

The following are terms used in the codebook:

- Local jail: A confinement facility usually administered by a local law enforcement agency, intended for adults but sometimes also
 containing juveniles, that holds persons detained pending adjudication and/or persons committed after adjudication for sentences
 usually a year or less. Excluded from the survey are temporary holding or lockup facilities that are not part of a combined function of
 a jail jurisdiction, from which inmates are usually transferred within 72 hours and not held beyond arraignment.
- Jurisdiction: A county (parish in Louisiana), municipality, township, or regional authority that administers one or more local jails.
- · Regional jail: A jail in which two or more jurisdictions have a formal agreement to operate the facility.
- Juvenile: A person subject to the exercise of juvenile court jurisdiction for the purposes of adjudication and treatment based on the age
 and offense limitations as defined by state law. For the purposes of this report, a person of juvenile age is considered a juvenile even
 though they may be tried as an adult in criminal court.
- Adult criminal offender: A person subject to the original jurisdiction of the criminal court rather than the juvenile court because at the time of the offense the person was above a statutory age limit.
- Average daily population: To calculate the average daily population respondents were instructed to add the number of persons for each
 day during the period July 1, 2012 to June 30, 2013, and to divide the result by 365.

Notes

JAIL IDENTIFICATION (JURDID) AND THE FEDERAL INFORMATION PROCESSING STANDARDS (FIPS CODE)

The first 9 digits of the jail identification code (JURDID) are the government identification codes that the U.S. Census Bureau uses to identify governments in the United States. The GID maintains the name and unique identification code for all local governments in the United States, based on the 2009 Census of Governments and is the Census Bureau's master list of all governments in the United States. The GID code identifies the location of governments, whether they are state, county, city, place, or municipality.

An alternative scheme for identifying places is the Federal Information Processing Standards (or FIPS) codes, which are a standardized set of codes issued by the National Institute of Standards and Technology to ensure uniform identification of geographic entities throughout all federal government agencies. The entities covered under the FIPS include states and equivalent entities, counties, named populated and related location entities (such as places and county subdivisions) as well as American Indian and Alaska Native areas. More information about FIPS codes as well as the identifications of areas under FIPS can be found at http://www.census.gov/geo/www/fips/fips.html.

The GID code is not equivalent to the FIPS codes. The Census Bureau provides a crosswalk between the GID codes and FIPS codes through its integrated directory, which can be found at http:// harvester.census.gov/gid/gid 07/options.html.

Methodology and Processing

Data Collection Methodology

Time Method: Cross-section

Data Collector: United States Department of Commerce. Bureau of the Census

Sampling Procedure:

In years between the complete census of local jail, BJS conducts the Annual Survey of Jails (ASJ). The ASJ is a sample survey of local jails used to estimate the number and characteristics of local inmates nationwide. For the 2013 ASJ, the U.S. Census Bureau, as the collection agent, drew a sample of 891 jail jurisdictions (including 21 newly added existing California jail jurisdictions) represented by 946 jail facilities (also referred to as reporting units). This sample represents over 2,800 jail jurisdictions nationwide. Local jail jurisdictions include counties (parishes in Louisiana) or municipal governments that administer one or more local jails.

The 2013 ASJ differed from the 2006-2012 ASJ's, as the 2013 ASJ included in the sample with a probability of one for all California jail jurisdictions in response to the two enacted laws - AB 109 and AB 117 by the California State Legislature and governor - to reduce the number of inmates housed in state prisons starting October 1, 2011. The inclusion of all California jail jurisdictions resulted in an additional 21 jail jurisdictions (for a total sample size of 891 jurisdictions).

Since the enactment of the two laws in recent years, the California jail population has experienced changes in size that cannot be compared to the changes of any other state in the U.S. For this reason, the California jail jurisdictions were put in separate strata so that they could represent only California jurisdictions.

In the adopted design, the over 2,800 jail jurisdictions nationwide were grouped into 10 strata. The 10 strata were defined by the crossing of two variables: the jail jurisdiction ADP in 2005, and whether in 2005 the jurisdiction held at least one juvenile. For 8 of the 10 strata, a random sample of jail jurisdictions was selected. For the remaining two strata, all jurisdictions were included in the sample. One stratum consisted of all jails (70) that were operated jointly by two or more jurisdictions (referred to as multi-jurisdictional jails). The other stratum (referred as certainty stratum) consisted of all jail jurisdictions (267) that -

-held juvenile inmates at the time of the 2005 Census of Jail Inmates and had an average daily population (ADP) of 500 or more inmates during the 12 months ending June 30, 2005.

-held only adult inmates and had an ADP of 750 or more.

Certainty jails jurisdiction in the survey received forms CJ-5D (Certainty Jurisdictions-Central data reporter) or CJ-5DA (Multi-Jurisdiction facilities and privately operated facilities in jurisdictions included with certainty in the Annual Survey of Jails). Randomly sampled jail jurisdictions received forms CJ-5 (County/City operated) or CJ-5A (Private Facilities operating for County/City jail jurisdictions). The same sampling design was adopted for the California jurisdictions.

Mode of Data Collection: web

Type of Research Instrument: Structured

Actions to Minimize Losses:

Data were obtained by mailed questionnaires and web form reporting. The ASJ collection began in June of 2013, and ended in November of the same year.

BJS has consistently maintained high rates of survey and item response rates. In an effort to minimize respondent burden and maximize response, the data collection plan allows for the jail respondents to submit data by mailing their reply in a postage-paid envelope or by fax, in addition to the internet-based reporting system (which BJS implemented and redesigned in 2011).

To maximize the accuracy of survey, at the direction of BJS, data collection staff conduct out-of-range analysis of critical items and use the results from this analysis to prioritize follow-up contacts. Follow-up telephone calls and faxes to non respondents are used to encourage high response rates. These methods have proved effective in reaching the nearly 100% response rate while minimizing missing data.

The response rate for the survey was nearly 100% for the following critical data items from responding jail jurisdictions: confined persons (CONFPOP), average daily population (ADP) and the total rated capacity (RATED). Extensive follow-up, including additional mail and fax requests and repeated telephone contacts, resulted in a nearly 100% response rate for the number of adult male and adult female inmates (ADULTM, ADULTF) and for the number of juvenile male and juvenile female inmates (JUVM, JUVF). The response rate was around 90% for data on conviction status (CONV, UNCONV), and around 92% for the number of inmates by race and Hispanic origin (WHITE, BLACK, HISP, AIAN, ASIAN, NHOPI). The response rate for admissions to and releases from jail was around 98%.

In the modifications to the ASJ (forms CJ-5D and CJ-5DA), starting in 2010 and again in 2013, approximately 335 jail jurisdictions (372 respondents) included with certainty (stratumNew 1.0, 1.1, and 12.0 in ASJ 2013) in the ASJ sample survey were asked to provide additional information on the flow of inmates going through jails and the distribution of time served, staff characteristics and assaults on staff resulting in death, and inmate misconduct. The item response rate varied again for 2013 based on 352 respondents reporting data:

92% for staff by occupation (CORRSTAFF, OTHERSTAFF);

70% for length of stay, based on releases from jail (series of questions starting with CONVII10A, UNCONVII10A);

Ranging between 97% and 100% for assaults on facility staff and staff deaths (ASSAULTSTAFFYN, ASSAULTCORR, ASSAULTOTRSTAFF, DEATHSTAFFYN, DEATHCORR, DEATHOTRSTAFF):

Ranging between 77% and 85% for inmate misconduct (PHYSASSAULT, DRUGVIO, ALCOVIO, WEAPON, STOLENPROP, ESCAPE, OTHERMAJVIO).

Notes

When calculating the total number of persons supervised but not confined, please use the created variable NCONPOP2. Excluded are inmates who participated in weekend programs that allow offenders to serve their sentences of confinement only on weekends (e.g., Friday-Sunday). This was created to reflect reporting changes in specific non-confined variables and will allow the user to reproduce figures found in BJS publications:

NCONPOP2=ELECMON+HOMDTN+COMMSVC+DAYRPTG+PRETSUP+WKPROG+DRUGPROG+OTRPROG

JUVENILES

State statutes and judicial practices allow juveniles to be incarcerated in adult jails under a variety of circumstances. Because of the differing statutes and practices, however, accurate and comparable data on juveniles are difficult to collect.

Beginning in 1994 the ASJ provided estimates of the total number of jail inmates under age 18, the number held as adults, and the number held as juveniles. New sampling procedures were also introduced in 1994 to minimize the standard errors of these estimates. By stratifying jurisdictions based on the authority to house juveniles, the precision of the juvenile counts was improved. (See methodology section of Prisoner and Jail Inmates at Midyear 1998).

CHANGES TO THE ANNUAL SURVEY OF JAILS FORM

Beginning with the 2003 survey and continued in 2013, item 5 (item 8 in 2003) of the ASJ instrument regarding inmates held in jail for other authorities was revised to include more detail on the types of Federal authorities that had inmates housed in local jails. Previous versions of the questionnaire asked if the jail jurisdiction being surveyed held inmates for Federal authorities, to include (but not specify counts individually for) those held for the U.S. Marshal's Service, the Federal Bureau of Prisons, U.S. Immigration and Customs Enforcement, Bureau of Indian Affairs, or other-specify. The 2003 through 2013 surveys ask the jail facility to identify how many were held for each of these entities, individually, as opposed to condensing them into a single "Federal authorities" category. Beginning with the 2005 Census of Jail Inmates and in the 2006 Annual Survey of Jails and onward, the new item 'two or more races' was added to the race category.

BJS has actively engaged its stakeholder communities in an effort to assess their needs for data and information about local jails. Through a series of discussions and focus groups at professional conferences of jail administrators and in workgroup meetings with jail and county association members, BJS has discussed its portfolio of work on local jails to assess the extent to which it is meeting the needs of stakeholder communities and addressing key or emerging issues that currently are not met by its surveys. Jail administrators and other users of BJS jail data consistently identified several issues that are important for them to know about jails.

Starting in 2010, BJS enhanced the ASJ survey instruments to address these important topics. Included is data on the number of convicted inmates that are unsentenced or sentenced and the number of unconvicted inmates awaiting trial/arraignment, or transfers/holds for other authorities. In order to reduce respondent burden, ASJ no longer collects data on conviction status by sex.

Prior to 2010, BJS collected and reports data on rated capacity and it reports the percent of capacity occupied at midyear, where capacity is defined as "rated capacity." Rated capacity is the number of inmates (beds) that a facility could hold independently of programs as defined by a rating official. Other measures of capacity are useful, as rated capacity does not necessarily reflect the space available to provide treatment, services, or programs.

New to the ASJ collection, beginning in 2010, is the operational capacity that indicates the amount of space that jails have to run various programs, and this number can change by relatively large amounts from year-to-year as budgets change. Measuring crowding in relation to budgeted or operational capacity gives an indication of the programming available for inmates. Finally, design capacity-the number of beds available in the design of a facility-gives a measure of the underlying amount of space available for modification and redesign. Incorporating enhanced capacity measurements enables BJS to describe more accurately the variation and volatility of inmate bed space and crowding, especially as they relate to safety and security in jails.

To address more directly issues related to overcrowding and safety and security in jails, BJS started collecting data on staff and assaults against staff from the largest jails. In the modifications to the ASJ, starting in 2010, and again in 2013, jail jurisdictions included with certainty (stratum 1 and 12) in the ASJ sample survey were asked to provide additional information on the flow of inmates going through jails and the distribution of time served, staff characteristics and assaults on staff resulting in death, and inmate misconduct.

Notes

AGGREGATING JAIL FACILITY AND RESPONDENT RECORDS INTO JAIL JURISDICTIONS:

In its statistics on jails, BJS reports data for jail jurisdictions. (See, for example table 9 in Jail Inmates at Midyear 2010-Statistical Tables, NCJ 233431, which reports data for the 50 largest jail jurisdictions in the nation.) A jail jurisdiction (typically a county) represents the entity that is responsible for managing the jail facilities under its authority. Jail jurisdictions may contain multiple facilities and/or multiple facility operators (i.e., both county and privately operated facilities). In the Annual Survey of Jails, BJS obtains data from jails responding or reporting units. For example, four reporting units in Allegheny County (PA) represent a single jail jurisdiction. BJS collapses the reporting units into the appropriate single jail jurisdiction.

Jail reporting units are represented by a 21-digit number (FACLID21). The first nine digits in FACLID21 encompass the jurisdiction code which must match in order to collapse the individual file into a single jail jurisdiction file. The 9-digit jurisdiction ID variable (JURDID) is included in the dataset. The privately operated facilities (indicated by "8" in the third position in FACLID21) were recoded into the appropriate county or city jurisdiction.

Steps to aggregate the data into jail jurisdictions:

- 1. Sort file by JURDID.
- 2. JURDID should be utilized as the break variable in order to match the 9-digit ID. With the exception of the variable BJSW, collapsing the data to produce a single jail jurisdiction record is performed by aggregating the absolute sum of the data variables in the file. The BJSW variable should be aggregated based on the average (mean) calculation, because the weight for the multiple reporting units reflects the weight given at the jurisdiction level when the sample was drawn. Collapsing the data into the jurisdiction level can be conducted in statistical programs including for example, SPSS (such as the "aggregate" function) or SAS (such as PROC SUMMARY or PROC MEANS function), using the JURDID variable as the classification variable.

Caution: Aggregating the flag items (0=Actual, 1=Estimate, 8=Not applicable and 9=Unknown) for the multiple reporting units into a single jurisdiction may result in numbers that differ from the original flag item. For example, if two reporting units each reported an unknown in the individual file, after aggregating the data, the jurisdiction level flag item will result in the number "18". Also, there are multiple variables in the dataset (i.e., city and facility name, other specifies) which are text and do not aggregate.

BJS METHOD OF CREATING THE JURISDICTION LEVEL FILE; HOW BJS MATCHED THE PRIVATELY OPERATED FACILITIES TO THE APPROPRIATE JAIL JURISDICTION:

The sample for the 2013 Annual Survey of Jails includes all publicly- and privately-operated jails in a sample of jail jurisdictions. BJS obtained data from 861 reporting units that represented 819 jurisdictions in the sample.

With the exception of two reporting units, the third position of the JURDID for the single jurisdictions in which data were obtained from multiple respondents was changed to "1", indicating a county government (e.g., 058037037 should be changed to 051037037). For the Marion County Jail II, C.C.A. (158049008) and the Metro Davidson County Detention Facility- C.C.A. (438019003), the third position was changed to "2" which indicates a municipal (city) government.

Note: Two records were not collapsed into a single jail jurisdiction record. These specific jurisdictions have a city or county jail and a regional jail. The regional jail is a separate jurisdiction. To prevent these records from collapsing into a single jurisdiction, BJS changed the JURDID prior to the aggregation step. The records are as follows:

South Fulton Regional Jail- 111060060062000000000 (Changed JURDID to 112060060).

Fulton County- 1110600600600000006600 (Did not change JURDID).

Portsmouth City Jail- 472125001061000000000 (Changed JURDID 471125001).

Hampton Roads Regional Jail-47212500106200000000 (Did not change JURDID).

Data Appraisal Information

Response Rate:

Response rate, nonresponse adjustment, out-of scope jail facilities, and final weight post-stratification (See methodology section in Jail Inmates at Midyear 2013-Statistical Tables for details)

The 2013 ASJ sample comprised 946 reporting units. Ninety-one percent (or 859) of the 941 individual reporting units responded to the 2013 data collection, and 82 individual reporting units did not respond to the survey. The sample initially comprised 946 units. However, 5 units were out-of-scope for the 2013 data collection because they had closed, either permanently or temporarily, which resulted in the sample of 941 active respondents. BJS implemented nonresponse weight adjustment procedures to account for unit nonresponse, as it did in 2011 and 2012.

To address more directly issues related to overcrowding and safety and security in jails, BJS started collecting data in 2010, and again in 2013, on staff and assaults against staff from the largest jails. In the modifications to the ASJ (forms CJ-5D and CJ-5DA), originally 335 jail jurisdictions (370 respondents) included with certainly in the ASJ sample survey were asked to provide additional information on the flow of inmates going through jails and the distribution of time served, staff characteristics and assaults on staff resulting in death, and inmate misconduct. Nearly all of these jail jurisdictions responded.

NOTES:

Because of the California Public Safety Realignment, between midyear 2011 and midyear 2013, California jails experienced a significant increase in the number of inmates (about 12,000 inmates) that was not experienced by jails nationwide. Consequently, California jails do not represent other jail jurisdictions nationwide. To ensure that the sampled California jail jurisdictions represent California jurisdictions only, BJS computed new weights. Without computing these new weights, the estimated nationwide jail population would be erroneously inflated.

Enhanced data items in Section IV - STAFF SAFETY AND SECURITY of forms CJ-5D or CJ-5DA are collected from certainty jail jurisdictions that are self-representing and should not be weighted. However, all other items in the survey for certainty jail jurisdictions are subject to weighting.

Nonresponse weight adjustment

The nonresponse weighting adjustment for the ASJ is handled in multiple steps. The first step is to set a respondent indicator and an active indicator for each reporting unit. The next step is to calculate the nonresponse weighting adjustment factor within sample stratum. The final step is to implement the final weight post-stratification as the result of California's jail jurisdictions and the Public Safety Realignment.

Respondent Indicators (See methodology section in Jail Inmates at Midyear 2013 for details)

Estimates of Sampling Error:

Because ASJ estimates are based on a sample survey, they may differ from the results of conducting a complete census. Different samples could yield somewhat different results. There are two kinds of error associated with survey data: non-sampling and sampling error.

In any survey the full extent of the non-sampling error is never known. Non-sampling error can be attributed to many sources, such as improper reporting, differences in the interpretation of questions among respondents, non-response, and data-processing errors.

Sampling error is the variation that may occur by chance because a sample rather than a complete enumeration was conducted. Standard error is a measure of the variation among the estimates from all possible samples, stating the precision with which an estimate from a particular sample approximates the average of all possible samples. The appended standard error table represents the error surrounding the estimates of several key variables.

To generate standard errors, composite variables were created using a standard statistical software package (SPSS). The following created variables consist of:

SEX - Males: ADULTM + JUVM

SEX - Females: ADULTF + JUVF

Adults: ADULTM + ADULTF

Juveniles - Held as adults: ADLTJUV

Juveniles - Held as juveniles: JUVM +JUVF - ADLTJUV

Race - Other: ASIAN+NHOPI

Conviction status - Convicted: CONV

Conviction status - Awaiting trial or other unconvicted: UNCONV

After these variables were created the statistical software package SUDAAN was used to generate standard errors. Due to the complex design of the survey, SUDAAN calculated the standard errors while taking into account the stratification of jurisdictions. The data were first sorted to put all jurisdictions into their appropriate stratum. Next, a 'total count' SUDAAN statement was used with the variables Stratum_SUM and PSU_SUM to provide the population (sampling universe) counts and sample counts, respectively. (See program below). Finally the weighted variables were listed in a statement to generate standard errors: For the standard errors, see appendix tables 1-7 in Jail Inmates at Midyear 2013 - Statistical Tables.

proc descript data="g:err13" filetype=ascii means totals design=strwor;

NEST Stratum:

totcnt Stratum SUM;

weight bjsw;

var CONFPOP TOTPOP WEEKN ADP RATED WHITE BLACK HISP ADULTM ADULTF TJUV JUVJUV ADULT TMALE TFEMALE CONVCTD UNCONV OTHERRACEE ;

SUDAAN provided sample estimates and estimated standard errors for selected items. (See appendix tables 1-7 in Jail Inmates at Midyear 2013-Statisticals Tables for standard error estimates). To construct a 95% confidence interval for any of the estimates provided, multiply the standard error for an estimate by the z-score of 1.96 (for a 95% confidence interval). Then take the result and both add and subtract the result to the sample estimate to generate the confidence interval for that estimate. For example, by taking the estimate number of inmates held on the last week in June 2013, 731,208 +- (1.96 x 8,042), a confidence interval of (715,446 to 746,970) can be constructed. This result shows the range of values the sample estimate would take 95 times out of 100 if different samples were drawn. Similar intervals may be constructed around other survey estimates.

Location: Inter-university Consortium for Political and Social Research

Extent of Collection: 1 data file + machine-readable documentation (PDF) + SAS setup file(s) + SPSS setup file(s) + Stata setup file(s) + SAS transport + SPSS system + Stata system

Data Use Statement:

Citation Requirement: Publications based on ICPSR data collections should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in footnotes or in the reference section of publications.

Deposit Requirement: To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, users of ICPSR data are requested to send to ICPSR bibliographic citations for each completed manuscript or thesis abstract. Visit the ICPSR Web site for more information on submitting citations.

Data Files Description

File-by-File Description

File Structure (rectangular)

File Dimensions:

No. of Cases: 859

• No. of Variables: 200

• Record Length: 1158

Type of File: ASCII data file

Data Format: Logical record length

Place of File Production: Ann Arbor, MI: Inter-university Consortium for Political and Social Research

Extent of Processing Checks: The data collection was processed according to the standard ICPSR processing procedures. The data were checked for illegal or inconsistent code values which, when found, were recoded to missing data values. No consistency checks were performed.

Notes

Variable WEIGHT is for reference only and it is not supposed to be used to calculate national estimate. Users can use variable BJSW for that purpose. See "Nonresponse weight adjustment" for more information.

Only the certainty jail jurisdictions (stratum 1 and 12) in the ASJ sample survey (2010-current) were asked to provide additional information (forms CJ-5D or CJ-5DA) on the flow of inmates going through jails and the distribution of time served, staff characteristics and assaults on staff resulting in death, and inmate misconduct. A eight should not be applied to these items because the responses are self-represented.

ICPSR 35517

Annual Survey of Jails: Jail-Level Data, 2013 Variable Description

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

WEEK - WEEKEND PROGRAM

Location: 206-211 (width: 6; decimal: 0)

Variable Type: numeric

Range of Missing Values (M): -9

Question:

1.3. On the weekend prior to June 28, 2013, did your jail jurisdiction have a weekend program?

Value	Label
1	Yes
2	No
-9 (M)	Blank

WEEKN - NUMBER OF WEEKENDERS

Location: 212-212 (width: 1; decimal: 0)

Variable Type: numeric

Question:

I.3. On the weekend prior to June 28, 2013, did your jail jurisdiction have a weekend program? How Many inmates participated?

WEEKF - WEEKENDERS FLAG

Location: 213-218 (width: 6; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

NCONPOP2 - NONCONFINED POPULATION CALCULATED

Location: 219-219 (width: 1; decimal: 2)

Variable Type: numeric

ADULTM - ADULT MALES

Location: 220-225 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.1. On June 28, 2013, how many persons CONFINED in your jail facilities were -

a. Adult males (age 18 or older)

ADULTMF - ADULT MALES FLAG

Location: 226-226 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

ADULTF - ADULT FEMALES

Location: 227-232 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.1. On June 28, 2013, how many persons CONFINED in your jail facilities were -

b. Adult females (age 18 or older)

ADULTFF - ADULT FEMALES FLAG

Location: 233-233 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

JUVM - MALES UNDER AGE 18

Location: 234-239 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.1. On June 28, 2013, how many persons CONFINED in your jail facilities were -

c. Males under age 18

JUVMF - MALES UNDER AGE 18

Location: 240-240 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

JUVF - FEMALES UNDER AGE 18

Location: 241-246 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.1. On June 28, 2013, how many persons CONFINED in your jail facilities were -

d. Females under age 18

JUVFF - FEMALES UNDER AGE 18 FLAG

Location: 247-247 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

TOTGENDER - TOTAL INMATES BY SEX

Location: 248-253 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.1. On June 28, 2013, how many persons CONFINED in your jail facilities were -

e. TOTAL (Sum of items II.1a to II.1d should equal item I.1a)

TOTGENDERF - TOTAL INMATES BY SEX FLAG

Location: 254-254 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

ADLTJUV - ADULT JUVENILES

Location: 255-260 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.2. Of all persons under the age of 18 CONFINED in your jail facilities on June 28, 2013 (items II.1c and II.1d), how many were tried, or awaiting trial, in adult court?

Number of persons under age 18 held as adults

ADLTJUVF - ADULT JUVENILES FLAG

Location: 261-261 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

CONV - CONVICTION STATUS: TOTAL CONVICTED

Location: 262-267 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.3. Of all persons CONFINED in your jail facilities on June 28, 2013, how many were -

a. Convicted

CONVF - CONVICTION STATUS: TOTAL CONVICTED FLAG

Location: 268-268 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated

Value	Label
8	Not applicable
9	Don't know

CONVUNSENT - CONVICTION STATUS: CONVICTED: UNSENTENCED INMATES OR AWAITING SENTENCING

Location: 269-274 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.3. Of all persons CONFINED in your jail facilities on June 28, 2013, how many were -

a. Convicted - 1. Unsentenced inmates or awaiting sentencing

CONVUNSENTF - CONVICTION STATUS: CONVICTED: UNSENTENCED INMATES OR AWAITING SENTENCING FLAG

Location: 275-275 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated

9	Don't know

CONVSENT - CONVICTION STATUS: CONVICTED: SENTENCED INMATES

Location: 276-281 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.3. Of all persons CONFINED in your jail facilities on June 28, 2013, how many were -

a. Convicted - 2. Sentenced inmates

CONVSENTF - CONVICTION STATUS: CONVICTED: SENTENCED INMATES FLAG

Location: 282-282 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

UNCONV - CONVICTION STATUS: TOTAL UNCONVICTED

Location: 283-288 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.3. Of all persons CONFINED in your jail facilities on June 28, 2013, how many were -

b. Unconvicted

UNCONVF - CONVICTION STATUS: TOTAL UNCONVICTED FLAG

Location: 289-289 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

UNCONVTRIAL - CONVICTION STATUS: UNCONVICTED: AWAITING TRIAL/ARRAIGNMENT

Location: 290-295 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.3. Of all persons CONFINED in your jail facilities on June 28, 2013, how many were -

b. Unconvicted - 1. Awaiting trial/arraignment

UNCONVTRIALF - CONVICTION STATUS: UNCONVICTED: AWAITING TRIAL/ARRAIGNMENT FLAG

Location: 296-296 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

UNCONVHOLD - CONVICTION STATUS: UNCONVICTED: AWAITING TRANSFER/HOLD FOR OTHER AUTHORITIES

Location: 297-302 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.3. Of all persons CONFINED in your jail facilities on June 28, 2013, how many were -

b. Unconvicted - 2. Awaiting transfer/hold for other authorities

UNCONVHOLDF - CONVICTION STATUS: UNCONVICTED: AWAITING TRANSFER/HOLD FOR OTHER AUTHORITIES FLAG

Location: 303-303 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated

Location: 311-316 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.3. Of all persons CONFINED in your jail facilities on June 28, 2013, how many were -

c. TOTAL (Sum of items II.3a and II.3b should equal item I.1a)

S2QII3CF - TOTAL CONVICTION STATUS FLAG

Location: 317-317 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

WHITE - WHITE

Location: 318-323 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.4. On June 28, 2013, how many persons CONFINED in your jail facilities were - a. White, not of Hispanic origin

WHITEF - WHITE FLAG

Location: 324-324 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

BLACK - BLACK OR AFRICAN AMERICAN

Location: 325-330 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.4. On June 28, 2013, how many persons CONFINED in your jail facilities were - b. Black or African American, not of Hispanic origin

BLACKF - BLACK OR AFRICAN AMERICAN FLAG

Location: 331-331 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

HISP - HISPANIC OR LATINO

Location: 332-337 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.4. On June 28, 2013, how many persons CONFINED in your jail facilities were - c. Hispanic or Latino

HISPF - HISPANIC OR LATINO FLAG

Location: 338-338 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

AIAN - AMERICAN INDIAN/ALASKA NATIVE

Location: 339-344 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.4. On June 28, 2013, how many persons CONFINED in your jail facilities were - d. American Indian/Alaska Native, not of Hispanic origin

AIANF - AMERICAN INDIAN/ALASKA NATIVE FLAG

Location: 345-345 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

ASIAN - ASIAN

Location: 346-351 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.4. On June 28, 2013, how many persons CONFINED in your jail facilities were - e. Asian, not of Hispanic origin

ASIANF - ASIAN FLAG

Location: 352-352 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

NHOPI - NATIVE HAWAIIAN/OTHER PACIFIC ISLANDER

Location: 353-358 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.4. On June 28, 2013, how many persons CONFINED in your jail facilities were - f. Native Hawaiian or Other Pacific Islander, not of Hispanic origin

NHOPIF - NATIVE HAWAIIAN/OTHER PACIFIC ISLANDER FLAG

Location: 359-359 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

TWORACE - TWO OR MORE RACES

Location: 360-459 (width: 100; decimal: 0)

Variable Type: numeric

Question:

II.4. On June 28, 2013, how many persons CONFINED in your jail facilities were - g. Two or more races, not of Hispanic origin

TWORACEF - TWO OR MORE RACES FLAG

Location: 460-465 (width: 6; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

OTHERRACESPEC - ADDITIONAL RACE CATEGORIES IN YOUR INFORMATION SYSTEM SPECIFY - ALPHA

Location: 466-466 (width: 1; decimal: 0)

Variable Type: character

Question:

II.4. On June 28, 2013, how many persons CONFINED in your jail facilities were - h. Additional categories in your information system - Specify

OTHERRACE - ADDITIONAL RACE CATEGORIES IN YOUR INFORMATION SYSTEM SPECIFY

Location: 467-472 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.4. On June 28, 2013, how many persons CONFINED in your jail facilities were - h. Additional categories in your information system

OTHERRACEF - ADDITIONAL RACE CATEGORIES IN YOUR INFORMATION SYSTEM SPECIFY FLAG

Location: 473-473 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

RACEDK - RACE NOT KNOWN

Location: 474-479 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.4. On June 28, 2013, how many persons CONFINED in your jail facilities were - i. Race not known

RACEDKF - RACE NOT KNOWN FLAG

Location: 480-480 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

RACETOTAL - TOTAL INMATE RACE

Location: 481-486 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.4. On June 28, 2013, how many persons CONFINED in your jail facilities were - j. TOTAL (Sum of items II.4a to II.4i should equal item I.1a)

RACETOTALF - TOTAL INMATE RACE FLAG

Location: 487-487 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

MARSHALS - U.S. MARSHAL'S SERVICE

Location: 488-493 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.5. On June 28, 2013, how many persons CONFINED in your jail facilities were held for - a. Federal authorities - 1. U.S. Marshals Service

MARSHALSF - U.S. MARSHAL'S SERVICE FLAG

Location: 494-494 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

BOP - FEDERAL BUREAU OF PRISONS

Location: 495-500 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.5. On June 28, 2013, how many persons CONFINED in your jail facilities were held for - a. Federal authorities - 2. Federal Bureau of Prisons

BOPF - FEDERAL BUREAU OF PRISONS FLAG

Location: 501-501 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

ICE - U.S. IMMIGRATION AND CUSTOMS EMFORCEMENT

Location: 502-507 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.5. On June 28, 2013, how many persons CONFINED in your jail facilities were held for - a. Federal authorities - 3. U.S. Immigration and Customs Enforcement (I.C.E.)

ICEF - U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT FLAG

Location: 508-508 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

BIA - BUREAU OF INDIAN AFFAIRS

Location: 509-608 (width: 100; decimal: 0)

Variable Type: numeric

Question:

II.5. On June 28, 2013, how many persons CONFINED in your jail facilities were held for - a. Federal authorities - 4. Bureau of Indian Affairs

BIAF - BUREAU OF INDIAN AFFAIRS FLAG

Location: 609-614 (width: 6; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

S2QII5A5SPEC - OTHER FEDERAL AUTHORITIES - SPECIFY

Location: 615-615 (width: 1; decimal: 0)

Variable Type: character

Question:

II.5. On June 28, 2013, how many persons CONFINED in your jail facilities were held for - a. Federal authorities - 5. Other - Specify

S2QII5A5 - OTHER FEDERAL AUTHORITIES

Location: 616-621 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.5. On June 28, 2013, how many persons CONFINED in your jail facilities were held for - a. Federal authorities - 5. Other

S2QII5A5F - OTHER FEDERAL AUTHORITIES FLAG

Location: 622-622 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

INSTATEPRIS - STATE: FOR YOUR STATE

Location: 623-628 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.5. On June 28, 2013, how many persons CONFINED in your jail facilities were held for - b. State prison authorities - 1. For your state

INSTATEPRISF - STATE: FOR YOUR STATE FLAG

Location: 629-629 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

OUTSTATEPRIS - STATE: FOR OTHER STATES

Location: 630-635 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.5. On June 28, 2013, how many persons CONFINED in your jail facilities were held for - b. State prison authorities - 2. For other states

OUTSTATEPRISF - STATE: FOR OTHER STATES FLAG

Location: 636-636 (width: 1; decimal: 0)

Value	Label
0	Actual

Value	Label
1	Estimated
8	Not applicable
9	Don't know

INSTATEJAIL - LOCAL: WITHIN YOUR STATE

Location: 637-642 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.5. On June 28, 2013, how many persons CONFINED in your jail facilities were held for - c. Other local jail jurisdictions - EXCLUDE inmates being housed for your own jurisdiction (i.e., your own county/city inmated) - 1. Within your state

INSTATEJAILF - LOCAL: WITHIN YOUR STATE FLAG

Location: 643-643 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

OUTSTATEJAIL - LOCAL: OUTSIDE YOUR STATE

Location: 644-649 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.5. On June 28, 2013, how many persons CONFINED in your jail facilities were held for - c. Other local jail jurisdictions - 2. Outside your state

OUTSTATEJAILF - LOCAL: OUTSIDE YOUR STATE FLAG

Location: 650-650 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

S2QII5D - TOTAL OTHER AUTHORITIES

Location: 651-652 (width: 2; decimal: 0)

Question:

II.5 d. TOTAL (Sum of items II.5a to II.5c)

S2QII5DF - TOTAL OTHER AUTHORITIES FLAG

Location: 653-658 (width: 6; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

PEAKDATE - WHAT DAY - GREATEST NUMBER OF INMATES

Location: 659-659 (width: 1; decimal: 0)

Variable Type: numeric

Question:

II.6. During the 30-DAY period from June 1 to June 30, 2013, on what day did your facility hold the greatest number of inmates? Peak population should be equal to or greater than the confined inmate population reported in item I.1a

PEAKPOP - 30-DAY (MOST HELD)

Location: 660-665 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.6 b. How many persons were CONFINED on that day?

PEAKPOPF - 30-DAY FLAG

Location: 666-666 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

ADP - AVERAGE DAILY POPULATION

Location: 667-672 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.7. Between July 1, 2012, and June 30, 2013, what was the average daily population of all jail confinement facilities operated by your jurisdiction? - Include inmates who participated in weekend programs that allow offenders to serve their sentences of confinement only

on weekends (e.g., Friday-Sunday). - To calculate the average daily population, add the number of persons for each day during the period July 1, 2012, through June 30, 2013, and divide the result by 365.

ADPF - AVERAGE DAILY POPULATION FLAG

Location: 673-673 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
5	BJS estimated data
8	Not applicable
9	Don't know

RATED - RATED CAPACITY

Location: 674-679 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.8. On June 28, 2013, what was the total jail capacity of your jail facilities?

a. Rated capacity (The maximum number of beds or inmates assigned by a rating official to a facility, excluding separate temporary holding areas.)

RATEDF - RATED CAPACITY FLAG

Location: 680-680 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
5	BJS estimated data
8	Not applicable
9	Don't know

OPERATION - OPERATIONAL CAPACITY

Location: 681-686 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.8. On June 28, 2013, what was the total jail capacity of your jail facilities?

b. Operational capacity (The number of inmates that can be accommodated based on staff, existing programs and services in institutions within your jurisdiction.

Also known as "budget" capacity.)

OPERATIONF - OPERATIONAL CAPACITY FLAG

Location: 687-687 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
5	BJS estimated data
8	Not applicable
9	Don't know

DESIGN - DESIGN CAPACITY

Location: 688-693 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.8. On June 28, 2013, what was the total jail capacity of your jail facilities?

c. Design capacity (The number of inmates planners or architects intended for all jail facilities in your jurisdiction.)

DESIGNF - DESIGN CAPACITY FLAG

Location: 694-694 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
5	BJS estimated data
8	Not applicable
9	Don't know

ADMIS - NEW ADMISSIONS

Location: 695-700 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.9. During the WEEK of June 24 to June 30, 2013, how many persons were -

a. New admissions in your jail facilities? - INCLUDE persons officially booked into and housed in your facility by formal legal document and by the authority

of the courts or some other official agency. - INCLUDE those persons serving a weekend sentence coming into the facility for the first time. EXCLUDE returns from escape, work release, medical appointments/treatment facilities, bail and court appearances.

ADMISF - NEW ADMISSIONS FLAG

Location: 701-701 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know

RELEASE - FINAL DISCHARGES

Location: 702-707 (width: 6; decimal: 0)

Variable Type: numeric

Question:

II.9. During the WEEK of June 24 to June 30, 2013, how many persons were -

b. Final discharges from your jail facilities? INCLUDE all persons released after a period of confinement (e.g., sentence completion, bail/bond releases, other pretrial releases, transfers to other jurisdictions and deaths). - INCLUDE those persons completing their weekend sentence leaving the facility for the last time. - EXCLUDE temporary discharges (e.g., work releases, medical appointments/treatment, to courts, furloughs, day reporters and transfers to other facilities within your jurisdiction.)

RELEASEF - FINAL DISCHARGES FLAG

0	Actual
1	Estimated
8	Not applicable
9	Don't know

CONVII10A - DISCHARGED: TIME SERVED LESS THAN 1 DAY - CONVICTED

Location: 710-715 (width: 6; decimal: 0)

Variable Type: numeric

Range of Missing Values (M): -9

Question:

II.10. During the WEEK of June 24 to June 30, 2013, how many persons discharged from your jail facility were confined -- Report time served, not sentence length, for discharged person.

Convicted - a. Less than 1 day

Value	Label
-9 (M)	Blank

CONVII10AF - DISCHARGED: TIME SERVED LESS THAN 1 DAY - CONVICTED FLAG

Location: 716-717 (width: 2; decimal: 0)

Variable Type: numeric

Range of Missing Values (M): -9

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know
-9 (M)	Blank

UNCONVII10A - DISCHARGED: TIME SERVED LESS THAN 1 DAY - UNCONVICTED

Location: 718-723 (width: 6; decimal: 0)

Variable Type: numeric

Range of Missing Values (M): -9

Question:

II.10. During the WEEK of June 24 to June 30, 2013, how many persons discharged from your jail facility were confined -- Report time served, not sentence length, for discharged person.

Unconvicted - a. Less than 1 day

Value	Label
-9 (M)	Blank

UNCONVII10AF - DISCHARGED: TIME SERVED LESS THAN 1 DAY - UNCONVICTED FLAG

Location: 724-725 (width: 2; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated

Value	Label
8	Not applicable
9	Don't know
-9 (M)	Blank

CONVII10B - DISCHARGED: TIME SERVED 1 TO 2 DAYS - CONVICTED

Location: 726-731 (width: 6; decimal: 0)

Variable Type: numeric

Range of Missing Values (M): -9

Question:

II.10. During the WEEK of June 24 to June 30, 2013, how many persons discharged from your jail facility were confined -- Report time served, not sentence length, for discharged person.

Convicted - b. 1 to 2 days

Value	Label
-9 (M)	Blank

CONVII10BF - DISCHARGED: TIME SERVED 1 TO 2 DAYS - CONVICTED FLAG

Location: 732-733 (width: 2; decimal: 0)

Variable Type: numeric

Range of Missing Values (M): -9

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know
-9 (M)	Blank

UNCONVII10B - DISCHARGED: TIME SERVED 1 TO 2 DAYS - UNCONVICTED

Location: 734-739 (width: 6; decimal: 0)

Variable Type: numeric

Range of Missing Values (M): -9

Question:

II.10. During the WEEK of June 24 to June 30, 2013, how many persons discharged from your jail facility were confined -- Report time served, not sentence length, for discharged person.

Unconvicted - b. 1 to 2 days

Value	Label
-9 (M)	Blank

UNCONVII10BF - DISCHARGED: TIME SERVED 1 TO 2 DAYS - UNCONVICTED FLAG

Location: 740-741 (width: 2; decimal: 0)

Variable Type: numeric

Range of Missing Values (M): -9

Value	Label
0	Actual
1	Estimated
8	Not applicable
9	Don't know
-9 (M)	Blank

CONVII10C - DISCHARGED: TIME SERVED 3 TO 7 DAYS - CONVICTED

Location: 742-747 (width: 6; decimal: 0)

Variable Type: numeric

Range of Missing Values (M): -9

Question:

II.10. During the WEEK of June 24 to June 30, 2013, how many persons discharged from your jail facility were confined -- Report time served, not sentence length, for discharged person.

Convicted - c. 3 to 7 days

Value	Label
-9 (M)	Blank

CONVII10CF - DISCHARGED: TIME SERVED 3 TO 7 DAYS - CONVICTED FLAG

Location: 748-749 (width: 2; decimal: 0)

Value	Label
9	Don't know

NONCONFD - TOTAL NONCONFINED PERSONS

Location: 977-982 (width: 6; decimal: 0)

Variable Type: numeric

Question:

III.1. On June 28, 2013, how many persons under your jail supervision who were NOT CONFINED participated in - EXCLUDE inmates on weekend programs - i. TOTAL (Sum of items III.1a to III.1h should equal item I.1b.)

NONCONFDF - TOTAL NONCONFINED PERSONS FLAG

Location: 983-983 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
5	BJS estimated data
8	Not applicable
9	Don't know

ADMLNCNF - ADULT MALE NONCONFINED

Location: 984-989 (width: 6; decimal: 0)

Variable Type: numeric

Question:

III.2. On June 28, 2013, how many persons under your jail supervision who were NOT CONFINED were -- a. Adult males (age 18 or older)

ADMLNCNFF - ADULT MALE NONCONFINED FLAG

Location: 990-990 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
5	BJS estimated data
8	Not applicable
9	Don't know

ADFMNCNF - ADULT FEMALE NONCONFINED

Location: 991-996 (width: 6; decimal: 0)

Question:

III.2. On June 28, 2013, how many persons under your jail supervision who were NOT CONFINED were -- b. Adult females (age 18 or older)

ADFMNCNFF - ADULT FEMALE NONCONFINED FLAG

Location: 997-997 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
5	BJS estimated data
8	Not applicable
9	Don't know

JVMLNCNF - NONCONFINED MALES UNDER AGE 18

Location: 998-1003 (width: 6; decimal: 0)

Variable Type: numeric

Question:

III.2. On June 28, 2013, how many persons under your jail supervision who were NOT CONFINED were -- c. Males under 18

JVMLNCNFF - NONCONFINED MALES UNDER AGE 18 FLAG

Location: 1004-1004 (width: 1; decimal: 0)

Variable Type: numeric

Value	Label
0	Actual
1	Estimated
5	BJS estimated data
8	Not applicable
9	Don't know

JVFMNCNF - NONCONFINED FEMALES UNDER AGE 18

Location: 1005-1010 (width: 6; decimal: 0)

Variable Type: numeric

Question:

III.2. On June 28, 2013, how many persons under your jail supervision who were NOT CONFINED were -- d. Females under 18

JVFMNCNFF - NONCONFINED FEMALES UNDER AGE 18 FLAG

Location: 1011-1011 (width: 1; decimal: 0)

Value	Label

Stratum		Description	2005 Census of Jail Inmates	Responded ASJ, 2013	Weight (BJSW)
1 1.1	Jurisdiction certainties based on ADP ^a California jail certainties ^{a,b}		248 21	230 21	1.0696 1.0000
2	I la lalina na a t	ADP between 264 and 499	87	35	2.4857
3	Holding at least one	ADP between 141 and 263	103	20	5.1500
4	juvenile on	ADP between 69 and 140	121	14	8.1027
5	Census day	ADP between 0 and 68	122	10	12.5000
5.1		California jail jurisdictions ADP between 0 and 68b	3	3	1.0000
7		ADP between 227 and 749	213	132	1.5742
7.1	Holding	California jurisdictions ADP between 227 and 749 ^b	16	17	1.0588
8	adults only	ADP between 103 and 226	350	114	3.0174
8.1	on Census	California jurisdictions ADP between 103 and 226 ^b	4	5	1.2000
9	day	ADP between 40 and 102	579	84	6.5925
9.1		California jurisdictions ADP between 40 and 102 ^b	8	9	1.1111
10		ADP between 0 and 39	937	46	18.4304
10.1		California jurisdictions ADP between 0 and 39 ^b	5	5	1.0000
12	Regional jail certainties ^a		64	65	1.0769
		TOTALS	2,881	810	

Note: For this collection year, BJS implemented nonresponse weight adjustment procedures to account for missing data for respondents that did not participate. See Methodology for a description of nonresponse weight adjustment procedures.

^aA jurisdiction is a certainty if either (1) the nonregional jurisdiction held at least one juvenile on Census day and had an average daily population (ADP) of 500 or more, or (2) the nonregional jurisdiction held adults only on Census day and had an ADP of 750 or more.

^bBecause of the California Public Safety Realignment, between midyear 2011 and midyear 2013, California jails experienced a significant increase in the number of inmates that was not experienced by jails nationwide. Consequently, California jails do not represent other jail jurisdictions nationwide. To ensure that the sampled (both with certainty and non-certainty) California jail jurisdictions represent California only, starting in 2013, BJS collects from all California jail jurisdictions and computes new weights for the responding jails. Without computing new weights, the estimated nationwide jail population would be erroneously inflated.

Jail Inmates at Midyear 2013 - Statistical Tables

Todd D. Minton and Daniela Golinelli, Ph.D., BJS Statisticians

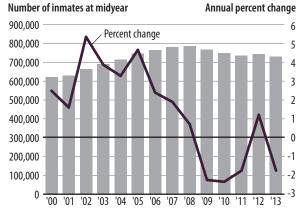

fter a peak in the number of inmates confi ed in county and city jails at midyear 2008 (785,533), the jail population was signifi antly lower by midyear 2013 (731,208) (figure 1, table 1). However, the estimated decline between midyear 2012 and 2013 was not statistically signifi ant. California's jails experienced an increase of about 12,000 inmates since midyear 2011. (For more information on California, see the text box on page 2.)

The jail incarceration rate—the confi ed population per 100,000 U.S. residents—declined slightly between midyear 2012 (237 per 100,000) and 2013 (231 per 100,000). This decline continues a downward trend from a high of 259 jail inmates per 100,000 residents in 2007.

Males represented at least 86% of the jail population since 2000. The female inmate population increased 10.9% (up 10,000 inmates) between midyear 2010 and 2013, while the male population declined 4.2% (down 27,500 inmates) (table 2, table 3). The female jail population grew by an average of about 1% each year between 2005 and 2013. In comparison, the male jail population declined an annual average of less than 1% every year since 2005 (not shown).

White inmates accounted for 47% of the total jail population, blacks represented 36%, and Hispanics represented 15% at midyear 2013. About 4,600 juveniles were held in local jails (less than 1% of the confi ed population), down from 5,400 during the same period in 2012.

FIGURE 1 Inmates confined in local jails at midyear and percent change in the jail population, 2000–2013

Sources: Bureau of Justice Statistics, Annual Survey of Jails, midyear 2000–2004 and midyear 2006–2012, and the Census of Jail Inmates, midyear 2005.

At midyear 2013, about 6 in 10 inmates were not convicted, but were in jail awaiting court action on a current charge—a rate unchanged since 2005. About 4 in 10 inmates were sentenced offenders or convicted offenders awaiting sentencing. From the fi st signifi ant decline in the overall jail population since midyear 2009, the unconvicted population (down 24,000 inmates) outpaced the decline in the convicted inmate population (down 12,000 inmates).

California Public Safety Realignment

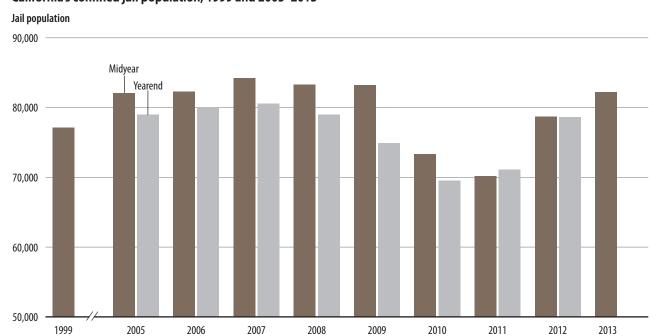

On May 23, 2011, the U.S. Supreme Court upheld the ruling by a lower three-judge court that the State of California must reduce its prison population to 137.5% of design capacity (approximately 110,000 prisoners) within 2 years to alleviate overcrowding. In response, the California State Legislature and governor enacted two laws—AB 109 and AB 117—to reduce the number of inmates housed in state prisons starting October 1, 2011.

The Public Safety Realignment (PSR) policy is designed to reduce the prison population through normal attrition of the existing population while placing new nonviolent, nonserious, nonsex offenders under county jurisdiction for incarceration in local jail facilities. Inmates released from local jails will be placed under a county-directed post-release community supervision program instead of the state's parole system. The state is giving additional funding to the 58 counties in California to deal with the increased correctional population and responsibility; however, each county must develop a plan for custody and post-custody that best serves its needs.

After record low jail populations between yearend 2010 and yearend 2011, the California jail population increased by an estimated 7,600 inmates between yearend 2011 and midyear 2012 and by an estimated 3,500 inmates between midyear 2012 and midyear 2013 (figure 2).

At midyear 2013, characteristics of inmates held in California jails differed from the national jail population (when excluding California), including inmates' race and conviction status. In California jails, Hispanics accounted for 45% of the total inmate population, whites represented 32%, and blacks represented 20% of inmates (not shown). In comparison, Hispanics accounted for 11% of the national inmate population (excluding California), whites represented 49%, and blacks represented 38% of the jail inmate population. There was also a slight difference in the inmate conviction status. At midyear 2013, 43% of inmates held in California jails were convicted, compared to 37% confined in non-California jails. No differences were found among male and female and adult and juvenile inmate populations.

FIGURE 2 California's confined jail population, 1999 and 2005–2013

Note: The midyear population is the number of inmates held on the last weekday in June. The yearend count is the number of inmates held on December 31. See *Methodology* for detail on estimating California's midyear jail population. Data are rounded.

Sources: Bureau of Justice Statistics, Census of Jails, 1999 and 2005; Annual Survey of Jails, midyear 2006–2013; and Deaths in Custody Reporting Program, yearend 2005–2012.

Revised August 12, 2014

The majority of the jail inmates were held in less than 10% of jails

The largest jails (those with an average daily population (ADP) of 1,000 or more inmates) held 48% of the inmate population at midyear 2013, but accounted for 6% of all jail jurisdictions nationwide (table 4). In comparison, the smallest jail jurisdictions held 3% of the inmate population, but accounted for 38% of all jail jurisdictions. Jail jurisdictions with an ADP of 50 to 99 inmates and 100 to 249 inmates accounted for equal shares (about 20% each) of jail jurisdictions. Combined, these jail jurisdictions accounted for 18% of all inmates. Jail jurisdictions with an ADP of 250 to 999 inmates accounted for 17% of all jail jurisdictions, but held 31% of all inmates at midyear 2013. Similar patterns were observed in 2012 for all categories.

Bed space between 2012 and 2013 declined for the first time since 1982

Rated capacity in jails reached 872,943 beds at midyear 2013, a decrease of 0.5% (down 4,453 beds) from 877,396 beds at midyear 2012; however, the change was not statistically signifi ant (**figure 3, table 5**). The change between midyear 2012 and 2013 was the fi st decline in the rated capacity since the Annual Survey Jails was fi st conducted in 1982. Rated capacity is the maximum number of beds or inmates allocated to each jail facility by a state or local rating offi al.

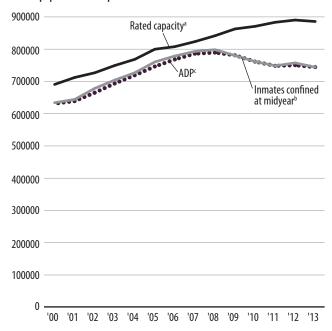

The percentage of rated capacity at midyear 2013 (84%) was the lowest since 1984 (86%). At midyear 2013, jail jurisdictions holding 1,000 or more inmates reported the highest percentage of occupied bed space (88%), compared to jails holding fewer than 50 inmates (64%) (table 6).

In addition to measuring the rated capacity occupied based on the inmate count at midyear, the measurement can be based on the ADP in jail jurisdictions during the 12-month period ending June 30, 2013, and by the number of inmates on the most crowded day during June 2013. Using these two measures, the nation's jails operated at about 84% of rated capacity on an average day and about 91% of rated capacity on their most crowded day in June 2013.

While the confi ed population and rated jail capacity both increased at roughly comparable rates from 2000 through 2008, the growth rates have diverged since 2008. The confi ed population declined by 1.4% on average per year, while rated capacity increased by 1.0% on average per year. The increase in capacity and decrease in confi ed population almost equally contributed to the decline in the percentage of capacity occupied, from 95% at midyear 2008 to 84% at midyear 2013.

cSum of all inmates in jail each day for a year, divided by the number of days in the year. Based on revised data for 2012.

Sources: Bureau of Justice Statistics, Annual Survey of Jails, midyear 2000–2004 and midyear 2006–2013, and the 2005 Census of Jail Inmates.

Revised August 12, 2014

Jail jurisdictions holding between 100 and 249 inmates experienced the largest difference in change rates between rated capacity and the jail inmate population (figure 4). From midyear 2008 to 2013, these jail jurisdictions reported a decrease of 1% in their inmate custody population and a 17% increase in their rated capacity. Jail jurisdiction holding fewer than 50 inmates and jurisdictions holding 1,000 or more inmates, reported the smallest difference between change in their inmate population and change in their rated capacity. All other jail jurisdiction categories experienced a decline in their midyear jail population and an increase in their rated capacity.

Local jails admitted 11.7 million persons during the 12-month period ending midyear 2013

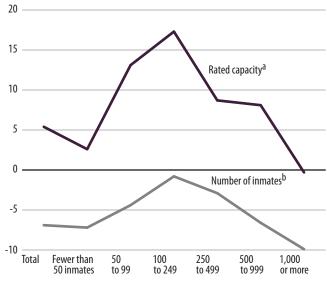

Local jails admitted an estimated 11.7 million persons during the 12-month period ending June 30, 2013, remaining stable since 2011 (11.8 million) and down from a peak of 13.6 million admissions in 2008. The number of persons admitted in 2013 was 16 times the size of the ADP (731,352) during the 12-month period ending June 30, 2013. (See *Methodology* for methods used to estimate admissions.)

More than a third of admissions during the last week of June 2013 were to the largest jail jurisdictions (table 7). In comparison, jail jurisdictions holding fewer than 50 inmates accounted for 7% of all jail admissions. For these jails, the number of inmates admitted was 34 times the size of the ADP between 2012 and 2013. These small jail jurisdictions also experienced the highest turnover rate (121%). The turnover rate was the smallest in large jail jurisdictions (44%). Higher turnover rates mean larger numbers of admissions and releases relative to the size of the ADP.

FIGURE 4

Percent change in the midyear custody population and rated capacity between 2008 and 2013

Percent change

Note: Jurisdiction size is based on the average daily population (ADP) during the 12-month period ending June 30, 2006, the first year in the current Annual Survey of Jails series. ADP is the sum of all inmates in jail each day for a year, divided by the number of days in the year.

^aMaximum number of beds or inmates assigned by a rating official to a facility, excluding separate temporary holding areas.

^bNumber of inmates held on the last weekday in June.

Methodology

Annual Survey of Jails

In years between the complete census of local jails, the Bureau of Justice Statistics (BJS) conducts the Annual Survey of Jails (ASJ). ASJ uses a stratifi d probability sample of jail jurisdictions to estimate the number and characteristics of local inmates nationwide. For the 2013 ASJ, the U.S. Census Bureau, as the collection agent, drew a sample of 891 jail jurisdictions (including 21 newly added existing California jail jurisdictions) represented by 946 jail facilities (referred to as reporting units). Th s sample represents over 2,800 jail jurisdictions nationwide. Local jail jurisdictions include counties (parishes in Louisiana) or municipal governments that administer one or more local jails.

In the adopted design, the over 2,800 jail jurisdictions nationwide were grouped into 10 strata. The 10 strata were defi ed by the crossing of two variables: the jail jurisdiction ADP in 2005, and whether in 2005 the jurisdiction held at least one juvenile. For 8 of the 10 strata, a random sample of jail jurisdictions was selected. For the remaining two strata, all jurisdictions were included in the sample. One stratum consisted of all jails (70) that were operated jointly by two or more jurisdictions (referred to as multi-jurisdictional jails). The other stratum (referred as certainty stratum) consisted of all jail jurisdictions (267) that—

- held juvenile inmates at the time of the 2005 Census of Jail Inmates and had an average daily population (ADP) of 500 or more inmates during the 12 months ending June 30, 2005.
- held only adult inmates and had an ADP of 750 or more.

The 2013 ASJ differed from the 2006–2012 ASJs, as the 2013 ASJ included in the sample with a probability of one all California jail jurisdictions in response to the two enacted laws—AB 109 and AB 117 by the California State Legislature and governor—to reduce the number of inmates housed in state prisons starting October 1, 2011. The inclusion of all California jail jurisdictions resulted in an additional 21 jail jurisdictions (for a total sample size of 891 jurisdictions). Since the enactment of the two laws in recent years, the California jail population has experienced changes in size that cannot be compared to the changes of any other state in the U.S. For this reason, the California jail jurisdictions were put in separate strata so that they could represent only California jurisdictions. The same sampling design was adopted for the California jurisdictions.

BJS obtained data from sampled jail jurisdictions by mailed and web-based survey questionnaires. After follow-up phone calls and facsimiles, the response rate for data reporters was nearly 100% for critical items, such as the number of inmates confi ed, ADP, and rated capacity. (See appendix tables 1-7 for standard errors associated with reported estimates from the 2013 ASJ).

Response rate, nonresponse adjustment, and out-ofscope jail facilities

The 2013 ASJ sample comprised 946 reporting units. Ninetyone percent (or 859) of the 941 individual reporting units responded to the 2013 data collection, and 82 individual reporting units did not respond to the survey.*

BJS implemented nonresponse weight adjustment procedures to account for unit nonresponse, as it did in 2011 and 2012.

Respondent indicators

The respondent reporting unit indicator JAILR_{hij} is set for each individual reporting unit j in jurisdiction i in stratum h on the file, based on the status of the individual reporting unit.

$$JAILR_{hij} = \begin{cases} 1 & \text{if respondent or using prior year data} \\ 0 & \text{if nonrespondent, closed, or out-of-scope.} \end{cases}$$

The respondent jurisdiction indicator $JURISR_{hi}$ is set for each jurisdiction i in stratum h on the file, based on the value of $JAILR_{hii}$ for the reporting units within the jurisdiction.

$$JURISR_{hi} = \begin{cases} 1 & \text{if } \sum_{j=1}^{n_i} JAILR_{hij} \ge 1\\ 0 & \text{otherwise} \end{cases}$$

Active Indicators

The active reporting unit indicator JAILA $_{\rm hij}$ is set for each individual reporting unit j in jurisdiction i in stratum h on the file, based on the status of the individual reporting unit.

$$JAILA_{hij} = \begin{cases} 1 & \text{if respondent, using prior year data, or nonrespondent} \\ 0 & \text{if closed, or out-of-scope.} \end{cases}$$

The active jurisdiction indicator JURISA $_{\rm hi}$ is set for each jurisdiction i in stratum h on the file, based on the value of JAILA $_{\rm hii}$ for the reporting units within the jurisdiction.

$$JURISA_{hi} = \begin{cases} 1 & \text{if } \sum_{j=1}^{n_i} JAILA_{hij} \geq 1 \\ 0 & \text{otherwise.} \end{cases}$$

*The sample initially comprised 946 units. However, 5 units were outof-scope for the 2013 data collection because they had closed, either permanently or temporarily, which resulted in the sample of 941 active respondents.

Nonresponse weighting adjustment factor

The nonresponse weighting adjustment factor is calculated within each stratum. BJS uses the sample weights in the nonresponse adjustment factor. The nonresponse weighting adjustment factor F_{2h} is calculated as

$$F_{2h} = \frac{\sum_{i=1}^{n_h} W_{hi} \times JURISA_{hi}}{\sum_{i=1}^{n_h} W_{hi} \times JURISR_{hi}}$$

where

n_h = number of jurisdictions sampled in stratum h,

 w_{hi} = sample weight for jurisdiction i in stratum h.

Final weight

The fi $\,$ al weight FW $_{
m hi}$ for each jail jurisdiction on the 2013 ASJ data file is calculated as

$$FW_{hi} = W_{hi} \times F_{2h} \times JURISR_{hi}$$

where

W_{hi} = sample weight in jurisdiction i in stratum h.

JAILR_{hi} is used to set the fi al weight to 0 for units that are closed, out-of-scope, or nonrespondents.

Final weight post-stratification: California jail jurisdictions and the Public Safety Realignment

Because of the California Public Safety Realignment, between midyear 2011 and midyear 2013, California jails experienced a signifi ant increase in the number of inmates (about 12,000 inmates) that was not experienced by jails nationwide. Consequently, California jails do not represent other jail jurisdictions nationwide. To ensure that the sampled California jail jurisdictions represent California jurisdictions only, BJS computed new weights. Without computing these new weights, the estimated nationwide jail population would be erroneously inflated.

The post-stratifi ation fi al weight adjustment is calculated for each stratum from which California jurisdictions were sampled. More specifi ally for each stratum, two new strata and set of weights were created: one for the California jurisdictions (PS $_{\overline{\rm CAh}}$) and one for the non-California jurisdictions (PS $_{\overline{\rm CAh}}$). In 2013, all California jail jurisdictions were included in the sample; however, not all of them responded.

The weight adjustment for California jail jurisdictions is computed as

$$PS_{CAh} = \frac{N_{CAh}}{\sum_{i=1}^{n_{CAh}} JURISR_{CAhi}}$$

where

N_{CAh} = number of California jurisdictions in stratum h,

 $n_{CAh} = number$ of sampled California jurisdictions in stratum h

The post-stratifi ation adjustment for non-California jurisdictions is computed as

$$PS_{\overline{CAh}} = \frac{N_{\overline{CAh}}}{\sum_{i=1}^{n_{\overline{CAh}}} JURISR_{\overline{CAhi}}}$$

where

 $N_{\overline{CAh}}$ = number of non-California jurisdictions in stratum h, computed as

$$N_{\overline{CA}h} = W_h \times \sum_{i=1}^{n_{\overline{CA}h}} JURISA_{\overline{CA}hi}$$

 $n_{\overline{CAh}}$ = number of sampled non-California jurisdictions in stratum h.

Item nonresponse imputation

Critical items: Midyear inmate population, average daily population (ADP), and rated capacity

Based on the 2013 ASJ, about 99% of the 859 individual reporting units provided valid data on their midyear inmate population (853), average daily population (847), and rated capacity (849). To calculate a national midyear inmate population, ADP, and rated capacity estimate, data were estimated for the reporting units that did not report specific ata.

Estimates were calculated based on the following criteria:

- Data for 5 individual reporting units included midyear inmate population data based on estimates from the 2012 ASJ.
- Data for 1 individual reporting unit included the midyear inmate population data based on estimates from the 2011 ASJ.
- Data for 11 individual reporting units included ADP data based on estimates from the 2012 ASJ.
- Data for 1 individual reporting unit included the ADP data based on their confi ed population at midyear 2013.

- Data for 7 individual reporting units included rated capacity data based on estimates from the 2012 ASJ.
- Data for 3 individual reporting unit included rated capacity data based on estimates from the 2011 ASJ.

Inmate characteristics

Based on the 2013 ASJ, more than 90% of the 859 individual reporting units provided valid data on sex, age, and race/ Hispanic origin. Nearly 91% of respondents provided data on inmate conviction status. To calculate a national rate for inmate characteristics, data were estimated based on the ratio of the reported characteristic population to the total midyear confi ed population.

Weekly admission and release estimation procedures

Based on the 2013 ASJ, 847 of the 859 individual reporting units (98%) provided valid data on weekly admissions or releases. To calculate an overall weekly estimate, data on offender fl ws through local jails were estimated for the 12 reporting units that did not report specific ata on admissions and releases. Release data were estimated for 3 reporting units that reported data on admissions, but not on releases. Nonresponse weight adjustments account for the 82 survey nonrespondents.

Estimates were calculated based on the following criteria:

- Data for 1 individual reporting unit included admission and release data based on estimates from the 2005 Census of Jail Inmates.
- Data for 1 individual reporting unit included admission and release data based on estimates from the 2007 ASJ.
- Data for 4 individual reporting units included admission and release data based on estimates from the 2011 ASJ.
- Data for 6 individual reporting units included admission and release data based on estimates from the 2012 ASI.
- Release data for 3 individual reporting units were based on admission data reported in 2013.

Calculating annual admissions

The ASJ collects data on weekly admissions. BJS determined that the June admission data from the 2004 Survey of Large Jails (SLJ) were a reliable source to calculate a nationwide annual admission estimate. Although the number of admissions to jails fluctuated throughout the year, the SLJ tracked monthly movements from January 2003 to January 2004 and showed that the June 2003 count (339,500) closely matched the annual average number of admissions

(342,956). The number of annual admissions was calculated by multiplying the weekly admissions by 366 days and dividing by 7 days.

Calculating weekly turnover rates

Weekly jail turnover rates were modeled after the Bureau of Labor Statistics' Job Openings and Labor Turnover Survey. Additional information on turnover rates is available at http://www.bls.gov/jlt/. Jail turnover rates were calculated by adding admissions and releases, and then dividing by the ADP. The turnover rate takes into account jail admissions and releases and gives an indication of the fluctuation of the jail population.

Jurisdiction size categories

For the 2011 through 2013 reports, BJS categorized jurisdiction sizes based on the ADP during the 12 months ending midyear 2006 (the fi st year in the current ASJ series). For the 2010 report, comparisons of size categories from midyear 2009 to midyear 2010 were based on the ADP during the 12 months ending midyear 2009. In previous reports (2007 through 2009), the size category comparisons were based on the 12 months ending midyear of the specific collection year. As a result, not all data in previous reports are comparable with data in this report.

Estimating California's 2012 midyear jail population

The ASJ is a sample survey, and data are not representative of individual states (except for California starting with the 2013 ASJ). In 2012, data from about 70% of California's jail jurisdictions were included in the 2006–2012 ASJs. Based on yearend data of California's jail population collected through BJS's Deaths in Custody Reporting Program, 70% of California's jail jurisdictions included in the ASJ accounted for about 97.5% of all California's jail population in any given year from 2005 to 2011.

In 2012, to calculate a midyear jail population, BJS applied the proportion of the latest yearend non-ASJ sample of California's jail population to the midyear inmate population in the ASJ sample for that year.

For example:

ASJ sample of California's jail population at midyear 2012 = 76,667

Proportion of the latest non-ASJ sample of California jail population at yearend 2011 = 2.5868%.

(76,667 * .025868) + (76,667) = 78,650 estimated midyear jail population.

Jail functions

Jails in the ASJ include confi ement facilities—usually administered by a local law enforcement agency—that are intended for adults but may hold juveniles before or after they are adjudicated. Facilities include jails and city or county correctional centers; special jail facilities, such as medical or treatment release centers, halfway houses, and work farms; and temporary holding or lockup facilities that are part of the jail's combined function. Inmates sentenced to jail facilities usually have a sentence of 1 year or less.

Within the ASJ, jails—

- receive individuals pending arraignment and hold them awaiting trial, conviction, or sentencing
- re-admit probation, parole, and bail bond violators and absconders
- temporarily detain juveniles pending their transfer to juvenile authorities
- hold mentally ill persons pending their movement to appropriate mental health facilities
- hold individuals for the military, for protective custody, for contempt, and for the courts as witnesses
- release convicted inmates to the community upon completion of sentence
- transfer inmates to federal, state, or other authorities
- house inmates for federal, state, or other authorities because of crowding of their facilities
- sometimes operate community-based programs as alternatives to incarceration.

Terms and definitions used in the report

Admissions—Persons who are offi ally booked and housed in jails by formal legal document and the authority of the courts or some other offi al agency. Jail admissions include persons sentenced to weekend programs and those who are booked into the facility for the fi st time. Excluded from jail admissions are inmates re-entering the facility after an escape, work release, medical appointment or treatment facility appointment, and bail and court appearances. BJS collects jail admissions for the last 7 days in June.

Average daily population (ADP)—The average is derived by the sum of inmates in jail each day for a year, divided by the number of days in the year (i.e., between July 1, 2012, and June 30, 2013).

Average annual change—The mean average change across a 12-month time period.

Calculating annual admissions—BJS collects the number of jail admissions during the last 7 days in June. Annual jail admissions are calculated by multiplying weekly admissions by the sum of 365 days divided by 7 days.

Calculating weekly jail turnover rate—Th s rate is calculated by adding admissions and releases and dividing by the average daily population. See *Calculating weekly turnover rates* for additional information.

Inmates confined at midyear—The number of inmates held in custody on the last weekday in June.

Jail incarceration rate—The number of inmates held in the custody of local jails, per 100,000 U.S. residents.

Percent of capacity occupied—Th s percentage is calculated by taking the number of inmates (midyear or average daily population), dividing by the rated capacity, and multiplying by 100.

Rated capacity—The number of beds or inmates assigned by a rating offi al to a facility, excluding separate temporary holding areas.

Releases—Persons released after a period of confi ement (e.g., sentence completion, bail or bond releases, other pretrial releases, transfers to other jurisdictions, and deaths). Releases include those persons who have completed their weekend program and who are leaving the facility for the last time. Excluded from jail releases are temporary discharges including work release, medical appointment or treatment center, court appearance, furlough, day reporting, and transfers to other facilities within the jail's jurisdiction.

Under jail supervision but not confined—Th s

classifi ation includes all persons in community-based programs operated by a jail facility. These programs include electronic monitoring, house arrest, community service, day reporting, and work programs. The classifi ation excludes persons on pretrial release and who are not in a community-based program run by the jail, as well as persons under supervision of probation, parole or other agencies, inmates on weekend programs, and inmates who participate in work release programs and return to the jail at night.

Weekend programs—Offenders in these programs are allowed to serve their sentences of confi ement only on weekends (i.e., Friday to Sunday).

The Bureau of Justice Statistics, located in the Office f Justice Programs, U.S. Department of Justice, collects, analyzes, and disseminates statistical information on crime, criminal offenders, victims of crime, and the operation of justice systems at all levels of government. William J. Sabol is acting director.

Th s report was written by Todd D. Minton and Daniela Golinelli. E. Ann Carson and Tracy L. Snell verifi d the report.

Leslie Miller carried out the data collection and processing with assistance provided by Beth Davis and Lorelle Dennis under the supervision of Stephen Simoncini and Heather C. West, Ph.D., Governments Division, Census Bureau, U.S. Department of Commerce. Suzanne Dorinski and Rekha Kudlur provided statistical and technical assistance.

Lockheed Martin and Jill Thomas edited the report. Tina Dorsey and Barbara Quinn produced the report.

GENERAL INFORMATION

- If you have any questions, call the U.S. Census Bureau at 1-800-253-2078, or e-mail govs.asj@census.gov.
- Please complete the questionnaire before July 31, 2013 using the web-reporting option (see the web flyer for details), by mailing the completed form to the U.S. Census Bureau in the enclosed envelope, or by FAXing all pages to 1-888-262-3974.
- Please retain a copy of the completed form for your records.

What types of facilities are included in this survey?

Confinement facilities usually administered by a local law enforcement agency, intended for adults but sometimes holding juveniles.

- INCLUDE jails and city/county correctional centers.
- INCLUDE special jail facilities (e.g., medical/treatment/release centers, halfway houses, and work farms).
- INCLUDE temporary holding or lockup facilities if they are part of your combined function.
- EXCLUDE temporary holding or lockup facilities that are not part of your combined function from which inmates are
 usually transferred within 72 hours and not held beyond arraignment. If your only function is a temporary holding or
 lockup facility, DO NOT complete this form contact Heather West at 1–800–253–2078.
- EXCLUDE facilities reporting to form CJ-5D, which collects data from jail jurisdictions that are selected with certainty to participate in the Annual Survey of Jails.

Burden statement

Under the Paperwork Reduction Act, we cannot ask you to respond to a collection of information unless it displays a currently valid OMB control number. The burden of this collection is estimated to average 1 1/4 hours per response, including reviewing instructions, searching existing data sources, gathering necessary data, and completing and reviewing this form. Send comments regarding this burden estimate or any aspect of this survey, including suggestions for reducing this burden, to the Director, Bureau of Justice Statistics, 810 Seventh Street, NW, Washington, DC 20531. Do not send your completed form to this address.

REPORTING INSTRUCTIONS

- If the answer to a question is "not available" or "unknown," write "DK" in the space provided.
- If the answer to a question is "not applicable," write "NA" in the space provided.
- If the answer to a question is "none" or "zero," write "0" in the space provided.
- When exact numeric answers are not available, provide estimates and mark (X) in the box beside each figure that is estimated. For example 1,234 | |X|

Section I — SUPERVISED POPULATION

- I.1. On June 28, 2013, how many persons under the supervision of your jail jurisdiction were
 - a. CONFINED in your jail facilities?
 - INCLUDE persons on transfer to treatment facilities but who remain under your jurisdiction.
 - · INCLUDE persons held for other jurisdictions.
 - INCLUDE persons in community-based programs (e.g., work release, day release, drug/alcohol treatment) who return to jail at night.
 - EXCLUDE any persons housed in facilities operated by two or more jurisdictions or those housed in privately operated jails.
 - EXCLUDE inmates on AWOL, escape, or long-term transfer to other jurisdictions.
 - EXCLUDE inmates being boarded out to another county or held in another facility not operated by your jail jurisdiction.

b. Under jail supervision but NOT CONFINED?

- INCLUDE all persons in community-based programs run by your jails (e.g., electronic monitoring, house arrest, community service, day reporting, and work programs).
- EXCLUDE persons on pretrial release who are not in a community based program run by your jails.
- EXCLUDE persons under supervision of probation, parole or other agencies.
- EXCLUDE inmates on weekend programs.
 Weekend programs allow offenders to serve their sentences of confinement only on weekends (e.g., Friday–Sunday).
- EXCLUDE inmates participating in work release programs who return to the jail at night.

GENERAL INFORMATION

- If you have any questions, call the U.S. Census Bureau at 1-800-253-2078, or e-mail govs.asj@census.gov.
- Please complete the questionnaire before July 31, 2013 using the web-reporting option (see the web flyer for details), by mailing the completed form to the U.S. Census Bureau in the enclosed envelope, or by FAXing all pages to 1-888-262-3974.
- Please retain a copy of the completed form for your records.

What types of facilities are included in this survey?

Privately owned or operated confinement facilities including detention centers, jails, and other correctional facilities, intended for adults but sometimes holding juveniles.

- INCLUDE temporary holding or lockup facilities if they are part of your combined function.
- EXCLUDE temporary holding or lockup facilities that are not part of your combined function from which inmates are usually transferred within 72 hours and not held beyond arraignment. If your only function is a temporary holding or lockup facility, DO NOT complete this form contact Heather West at 1–800–253–2078.
- EXCLUDE private facilities reporting to form CJ-5DA, which collects data from facilities in jail jurisdictions that are selected with certainty to participate in the Annual Survey of Jails.

Burden statement

Under the Paperwork Reduction Act, we cannot ask you to respond to a collection of information unless it displays a currently valid OMB control number. The burden of this collection is estimated to average 1 1/4 hours per response, including reviewing instructions, searching existing data sources, gathering necessary data, and completing and reviewing this form. Send comments regarding this burden estimate or any aspect of this survey, including suggestions for reducing this burden, to the Director, Bureau of Justice Statistics, 810 Seventh Street, NW, Washington, DC 20531. Do not send your completed form to this address.

REPORTING INSTRUCTIONS

- If the answer to a question is "not available" or "unknown," write "DK" in the space provided.
- If the answer to a question is "not applicable," write "NA" in the space provided.
- If the answer to a question is "none" or "zero," write "0" in the space provided.
 - When exact numeric answers are not available, provide estimates and mark (X) in the box beside each figure that is estimated. For example 1,234

Section	CIID	1-1-74	CED I	ъсън	ATION

- I.1. On June 28, 2013, how many persons under the supervision of your jail were
 - a. CONFINED in your jail facility?
 - INCLUDE persons on transfer to treatment facilities but who remain under your jurisdiction.
 - INCLUDE persons held for jurisdictions other than the participating jurisdictions.
 - INCLUDE persons in community-based programs (e.g., work release, day release, drug/alcohol treatment) who return to jail at night.
 - EXCLUDE inmates on AWOL, escape, or long-term transfer to other jurisdictions.
 - EXCLUDE inmates being boarded out to another county or held in another facility not operated by your jail jurisdiction.

b. Under jail supervision but NOT CONFINED?

- INCLUDE all persons in community-based programs run by your jail (e.g., electronic monitoring, house arrest, community service, day reporting, and work programs).
- EXCLUDE persons on pretrial release who are not in a community based program run by your jail.
- EXCLUDE persons under supervision of probation, parole or other agencies.
- EXCLUDE inmates on weekend programs.
 Weekend programs allow offenders to serve their sentences of confinement only on weekends (e.g., Friday Sunday).
- EXCLUDE inmates participating in work release programs who return to the jail at night.

GENERAL INFORMATION

- If you have any questions, call the U.S. Census Bureau at 1-800-253-2078, or e-mail govs.asj@census.gov.
- Please complete the questionnaire before July 31, 2013 using the web-reporting option (see the web flyer for details), by mailing the completed form to the U.S. Census Bureau in the enclosed envelope, or by FAXing all pages to 1-888-262-3974.
- Please retain a copy of the completed form for your records.

What types of facilities are included in this survey?

Confinement facilities in jurisdictions included with certainty in the Annual Survey of Jails. Confinement facilities are usually administered by a local law enforcement agency, intended for adults but sometimes holding juveniles.

Confinement facilities

- INCLUDE jails and city/county correctional centers.
- INCLUDE special jail facilities (e.g., medical/treatment/release centers, halfway houses, and work farms).
- INCLUDE temporary holding or lockup facilities if they are part of your combined function.
- EXCLUDE temporary holding or lockup facilities that are not part of your combined function from which inmates are
 usually transferred within 72 hours and not held beyond arraignment. If your only function is a temporary holding or
 lockup facility, DO NOT complete this form contact Heather West at 1–800–253–2078.

Certainty jurisdictions

- INCLUDE facilities in jail jurisdictions that held juvenile inmates at the time of the 2005 Census of Jail Inmates and had an average daily population of 500 or more inmates during the 12 months ending June 30, 2005.
- INCLUDE facilities in jail jurisdictions that held only adult inmates and had an average daily population of 750 or more at the time of the 2005 Census of Jail Inmates.

Burden statement

Under the Paperwork Reduction Act, we cannot ask you to respond to a collection of information unless it displays a currently valid OMB control number. The burden of this collection is estimated to average 2 hours per response, including reviewing instructions, searching existing data sources, gathering necessary data, and completing and reviewing this form. Send comments regarding this burden estimate or any aspect of this survey, including suggestions for reducing this burden, to the Director, Bureau of Justice Statistics, 810 Seventh Street, NW, Washington, DC 20531. Do not send your completed form to this address.

Section I — SUPERVISED POPULATION

- I.1. On June 28, 2013, how many persons under the supervision of your jail jurisdiction were
 - a. CONFINED in your jail facilities?
 - INCLUDE persons on transfer to treatment facilities but who remain under your jurisdiction.
 - INCLUDE persons held for other jurisdictions.
 - INCLUDE persons in community-based programs (e.g., work release, day release, drug/alcohol treatment) who return to jail at night.
 - EXCLUDE any persons housed in facilities operated by two or more jurisdictions or those housed in privately operated jails.
 - EXCLUDE inmates on AWOL, escape, or long-term transfer to other jurisdictions.
 - EXCLUDE inmates being boarded out to another county or held in another facility not operated by your jail jurisdiction.

b. Under jail supervision but NOT CONFINED?

- INCLUDE all persons in community-based programs run by your jails (e.g., electronic monitoring, house arrest, community service, day reporting, and work programs).
- EXCLUDE persons on pretrial release who are not in a community based program run by your jails.
- EXCLUDE persons under supervision of probation, parole or other agencies.
- EXCLUDE inmates on weekend programs.
 Weekend programs allow offenders to serve their sentences of confinement only on weekends (e.g., Friday–Sunday).
- EXCLUDE inmates participating in work release programs who return to the jail at night.

GENERAL INFORMATION

- If you have any questions, call the U.S. Census Bureau at 1-800-253-2078, or e-mail govs.asj@census.gov.
- Please complete the questionnaire before July 31, 2013 using the web-reporting option (see the web flyer for details), by
 mailing the completed form to the U.S. Census Bureau in the enclosed envelope, or by FAXing all pages to
 1–888–262–3974.
- Please retain a copy of the completed form for your records.

What types of facilities are included in this survey?

Multi-Jurisdiction facilities and privately operated facilities in jurisdictions included with certainty in the Annual Survey of Jails. These facilities are intended for adults but sometimes hold juveniles.

For Multi-Jurisdiction facility

Confinement facilities including detention centers, jails, and other correctional facilities administered by two or more governments (or a board composed of representatives from two or more governments) included with certainty in the Annual Survey of Jails.

- INCLUDE regional jails or city/county correctional centers.
- INCLUDE special jail facilities (e.g., medical/treatment/release centers, halfway houses, and work farms).
- INCLUDE inmates held for jurisdictions, other than the participating jurisdictions.

For Privately Operated facility

Privately owned or operated confinement facilities in jurisdictions included with certainty in the Annual Survey of Jails, including detention centers, jails, and other correctional facilities.

- INCLUDE temporary holding or lockup facilities if they are part of your combined function.
- EXCLUDE temporary holding or lockup facilities that are not part of your combined function from which inmates are
 usually transferred within 72 hours and not held beyond arraignment. If your only function is a temporary holding or
 lockup facility, DO NOT complete this form contact Heather West at 1–800–253–2078.

Certainty facilities

- INCLUDE private facilities in jail jurisdictions that held juvenile inmates at the time of the 2005 Census of Jail Inmates and had an average daily population of 500 or more inmates during the 12 months ending June 30, 2005.
- INCLUDE private facilities in jail justidictions that held only adult inmates and had an average daily population of 750 or more at the time of the 2005 Census of Jail Inmates.

Burden statement

Under the Paperwork Reduction Act, we cannot ask you to respond to a collection of information unless it displays a currently valid OMB control number. The burden of this collection is estimated to average 2 hours per response, including reviewing instructions, searching existing data sources, gathering necessary data, and completing and reviewing this form. Send comments regarding this burden estimate or any aspect of this survey, including suggestions for reducing this burden, to the Director, Bureau of Justice Statistics, 810 Seventh Street, NW, Washington, DC 20531. Do not send your completed form to this address.

REPORTING INSTRUCTIONS

- If the answer to a question is "not available" or "unknown," write "DK" in the space provided.
- If the answer to a question is "not applicable," write "NA" in the space provided.
- If the answer to a question is "none" or "zero," write "0" in the space provided.
 - When exact numeric answers are not available, provide estimates and mark (X) in the box beside each figure that is estimated. For example 1,234 | X|

Section I — SUPERVISED POPULATION

1.1.	On June	28,	2013,	how	many	persons	under	the
	SUNATVIS	ion	of you	r iail	WATA	_		

a. CONFINED in your jail facility?

- INCLUDE persons on transfer to treatment facilities but who remain under your jurisdiction.
- INCLUDE persons held for jurisdictions other than the participating jurisdictions.
- INCLUDE persons in community-based programs (e.g., work release, day release, drug/alcohol treatment) who return to jail at night.
- EXCLUDE inmates on AWOL, escape, or long-term transfer to other jurisdictions.
- EXCLUDE inmates being boarded out to another county or held in another facility not operated by your jail jurisdiction.

b. Under jail supervision but NOT CONFINED?

- INCLUDE all persons in community-based programs run by your jail (e.g., electronic monitoring, house arrest, community service, day reporting, and work programs).
- EXCLUDE persons on pretrial release who are not in a community based program run by your jail.
- EXCLUDE persons under supervision of probation, parole or other agencies.
- EXCLUDE inmates on weekend programs.
 Weekend programs allow offenders to serve their sentences of confinement only on weekends (e.g., Friday Sunday).
- EXCLUDE inmates participating in work release programs who return to the jail at night.
